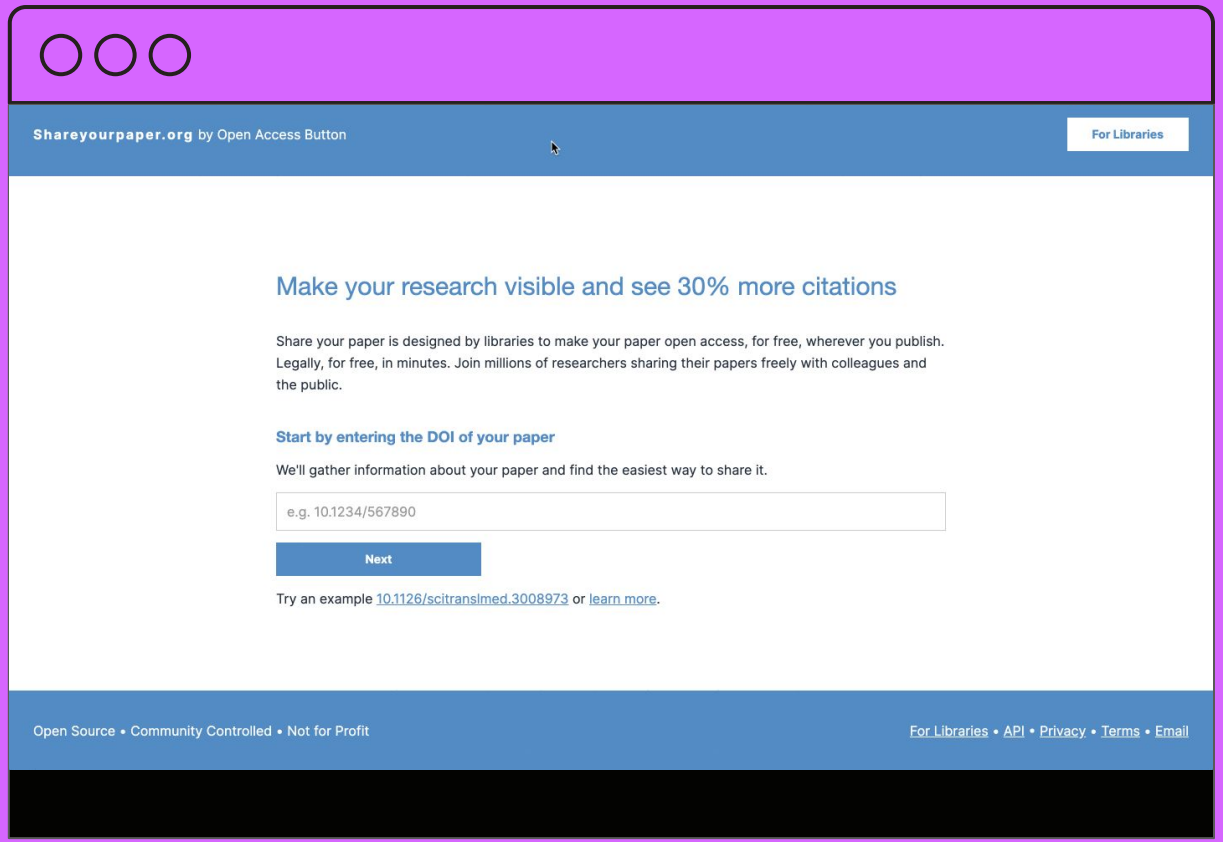
ShareYourPaper Recap



The ShareYourPaper deposit workflow.

A drag-and-drop deposit workflow that doesn't sacrifice legality or quality.

Why bother?

“the introduction of Shareyourpaper into our workflow has decreased the time spent sending out article requests and doing copyright clearance from nearly 2 1/2 days (for about 100 articles) to close to 2 1/2 hours!”

Setup Overview

Setup

ShareYourPaper.org/setup

“Setup was easy.”

“Shareyourpaper.org led me through a setup process that collected my contact information, repository name, deposit preferences, and OA policies at my institution, and customized some code that I could copy and paste into my library web page. With my basic (read: very basic) HTML skills, I was more than qualified to set up the service in about 7 minutes.”
