@Mark_H_Swansea

@L_OS_Cymru

Where it all started...

- The SWWHEP Project - <http://www.swwhep.ac.uk/>

The screenshot shows the SWWHEP website homepage. At the top, there are two columns of text: 'PARTNERIAETH ADDYSG UWCH DE ORLLEWIN CYMRU' with the tagline 'Yn gweithio gyda'n gilydd i helaethu a gwella gwasanaethau', and 'SOUTH WEST WALES HIGHER EDUCATION PARTNERSHIP' with the tagline 'Working together to enhance services'. Below this are three navigation buttons: 'Cymraeg - Welsh' (with subtext 'Ewch i mewn i fersiwn Gymraeg gwefan SWWHEP >>'), 'English - Saesneg' (with subtext 'Enter the English language version of the SWWHEP website >>'), and a central image strip of three photos of university buildings. At the bottom, there are logos for 'Y Drindod Dewi Sant' (University of Wales Trinity Saint David), 'SWANSEA METROPOLITAN UNIVERSITY' (Prifysgol Fetropolitana Abertawe), and 'Swansea University Prifysgol Abertawe'. A footer at the bottom of the screenshot reads: 'Hawlfraint SWWHEP © 2008 cedwir pob hawl yn fyd-eang - Copyright © 2008 - South West Wales Higher Education Partnership (SWWHEP)'.

SWWHEP Project Background

VIRTUAL ACADEMIC LIBRARY PROJECT

Budget of £1 million

Goals

Reciprocal borrowing for all staff and students

Physical and electronic document delivery between the three institutions

Implementation of RFID technology in all three library services

Shared storage of low use research material

SWWHEP Project Background

VIRTUAL ACADEMIC LIBRARY PROJECT

Budget of £1 million

Goals

An exploration of opportunities for the single management of services between Swansea University and Swansea Metropolitan University

A co-ordinated approach to staff development

Shared implementation of new services and process development

Shared access to library catalogues and if feasible e-resources

Why VuFind?

Requirements

- 3 LMS's = 1 discovery interface
 - Ex Libris Voyager
 - SirsiDynix Horizon
 - Talis Alto / Prism
- Full 'next generation' interface
- Customisable
- Integrate Federated Search
- Cost

Why Vufind?

The library OPAC meets Web 2.0!

[About](#) [Features](#) [Events](#) [Downloads](#) [Documentation](#) [Roadmap](#) [Support](#)

VuFind is a library resource portal designed and developed for libraries by libraries. The goal of VuFind is to enable your users to search and browse through all of your library's resources by replacing the traditional OPAC to include:

- Catalog Records
- Locally Cached Journals
- Digital Library Items
- Institutional Repository
- Institutional Bibliography
- Other Library Collections and Resources

VuFind is completely modular so you can implement just the basic system, or all of the components. And since it's open source, you can modify the modules to best fit your need or you can add new modules to extend your resource offerings.

[Live Demo](#) →

The screenshot shows the VuFind search results page for the query 'linux'. The search bar at the top contains 'linux' and 'Advanced' search mode is selected. The results are displayed in a list format with columns for book covers, titles, authors, call numbers, and locations. A 'Narrow Search' sidebar on the right allows filtering by format, author, topic, language, and genre. The first result is 'Special edition using Linux / by Sandel, David A.' with call number QA76.76.063 B3625 2001 and located on the 4th floor. The second result is 'Guide to Linux installation and administration / by Wells, Nicholas.' with call number Loading and located Loading. The third result is 'Linux : the complete reference / by Petersen, Richard.' with call number QA76.76.063 P523 1999 and located on the 4th floor. The fourth result is 'Sams teach yourself Linux in 10 minutes / by Ray, John.' with call number Loading and located Loading. The page shows 'Showing 1 - 20 of 29 Results for linux' and '1/6 Search Result' at the bottom.

News

2.0alpha Preview Available; 2.0beta Underway

July 02, 2012 - The first feature-complete preview release of VuFind 2.0 has been completed. Built using Zend Framework, this is the first step in moving VuFind to a more modern architecture. The preview release demonstrates all of the existing VuFind 1.x functionality while also filling in several gaps (including a more full-featured mobile theme and more consistent treatment of Summon and WorldCat records). This release is NOT INTENDED FOR PRODUCTION USE, as the architecture is still under development and many implementation details are still subject to change. However, it should serve as a taste of things to come, and comments/bug
